Welcome message by the General Conference Chair

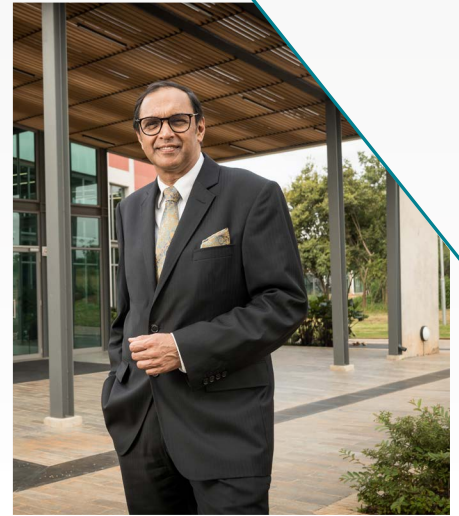

We are extremely pleased to welcome you to Cape Town, South Africa, for the 2022 World Engineering Education Forum and The Global Engineering Deans Council (WEEF&GEDC) Conference to be held from 28 November to 01 December 2022 at the Cape Town International Convention Centre (CTICC). The African Engineering Education Association (AEEA) Conference will be co-located with this conference.

We invite professors, academics, engineering educators, industry leaders, researchers, students and governmental organizations to attend and participate in this conference. This will give us all an opportunity to share our experiences, vision, strategy, research, products, technology and also network with engineering thought leaders from across the world.

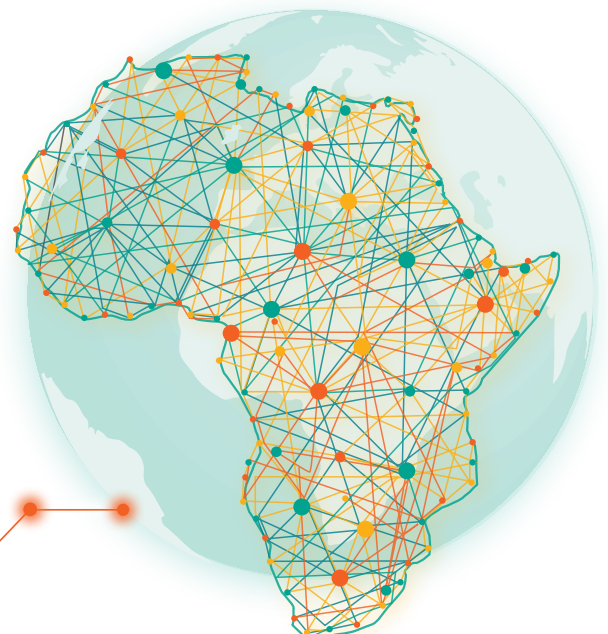

Each year, IFEEES holds the World Engineering Education Forum in different locations around the world. On even years, the conference is jointly convened with the Global Engineering Deans Council Conference. This is the largest global gathering in engineering education and includes participation from a large number of stakeholders – Engineering educators, global leaders, students, industry, governmental organizations, non-governmental organizations, amongst others – who share and build fruitful and long-term collaborations and future directions during the event.

The South African Society for Engineering Education (SASEE), as a member of IFEEES, with the University of Pretoria and Central University of Technology, in conjunction with the South African Engineering Deans' Forum, are collaborating to arrange this event. WEEF/GEDC provide a strong platform for interaction and consultation with international delegates for the sharing of interests and expertise, and we look forward to welcoming back our returning participants and supporters and for providing opportunities for new partners.

We look forward to working with you and thank you in advance for your important support of this conference. We plan to have an exciting line-up at the Conference.

PROF SUNIL MAHARAJ
GENERAL CONFERENCE CHAIR

WHY SPONSOR?

- Be part of a rich diverse program of engagement between engineering education leaders, academia, industry, students and government affiliated organizations.
- Opportunity to present keynote.
- Showcase your products, services, technology and applications through your exhibition stand.
- Be an agent of change through sharing your vision and strategy.
- Present demonstrations (live and recorded) with Q&A.
- Be part of the thought leadership via panel discussions with a broad audience.
- Engage with students from around the world.
- Reach out to many key decision makers involved in STEM education and training and other corporates.
- Distribute your marketing material.
- Flexibility of your events presented live, pre-recorded or recorded during conference for delegates to access the content across all time zones over an extended period.
- Opportunity to showcase and be part of a bouquet of keynotes talks, panel discussions, technical paper presentations, demonstrations and student discussions.
- Obtain data analytics on the conference and obtain information on online enquiries or postings.

AUDIENCE

The WEEF/GEDC 2022 is estimated to attract around 500 delegates from many disciplines that regularly incorporate, support and/or utilise engineers and engineering in their repertoire. The range of patrons includes local and foreign companies, national laboratories, venture funds, multilateral organisations, foundations, non-governmental organisations, university presidents and engineering deans, and faculty, academics and researchers from around the world and from all continents.

The 2022 event will be special as we are planning the Engineering Design Challenge Competition, where students from at least four continents will be participating. Attending will also be various engineering student formations like Engineers Without Borders (EWB) and Student Platform for Engineering Education Development (SPEED), and it will also include master's, doctoral and postdoctoral researchers.

The objective is to give any sponsor or exhibitor maximum exposure and opportunity to showcase their product, brand or services to this professional global engineering community.

HIGHLIGHTS OF CAPE TOWN

Table Mountain

A world heritage site, Cape Town's famous landmark is even bigger in stature than its 1 086 m summit. Enjoy lunch from the top or visit the souvenir shop after riding up in the new revolving cable car. The mountain also offers a myriad of enchanting walks, featuring everything from wild flowers, indigenous plants and its famous silver trees.

Cape Point Nature Reserve

Marking the southern extremity of the Cape Peninsula where the Indian and Atlantic Ocean meet, it is not hard to imagine that Cape Point offers views that are unrivalled anywhere in the world. Enjoy a meal at the renowned Two Oceans restaurant, take a ride on the funicular railway or pick out a curio at one of the shops – there is something for everyone to enjoy.

Victoria & Alfred Waterfront

Set against the majestic backdrop of Table Mountain, the V&A Waterfront in the heart of a working harbour, is Cape Town's premier shopping tourist destination and entertainment hotspot. Here, history and heritage fuses with modern convenience, to provide a uniquely magical dockside experience.

Kirstenbosch Botanical Gardens

On the eastern slopes of Table Mountain sprawls Kirstenbosch – widely considered to be the most beautiful public gardens on earth. Home to more than 8 600 indigenous plant species, some 5 800 of which are found nowhere else in the world, Kirstenbosch's splendourous beauty shows why Cape Town counts as one of the six Floral Kingdoms of the world.

Winelands

Nestled amidst rolling, picturesque valleys featuring Cape Dutch homesteads, the winelands of the Cape have been described as the most beautiful and scenic in the world. Today, the Cape's vineyards produce an extensive variety of cultivars that are blended and matured to create award-winning red and white wines that have earned their place among the world's best.

Robben Island

A short, pleasant ferry ride from Cape Town harbour lies one of the most well-known prison islands in the world. Its fascinating history includes being used as a penal settlement, leper colony and lunatic asylum – and most famously for having held Nelson Mandela during the apartheid era.

Scenic Helicopter Flight

Take a scenic helicopter flight over one of the most beautiful cities in the world, and experience the beauty of Cape Town and its surrounding scenery from a different perspective. Get breathtaking aerial views of Table Mountain, Chapman's Peak and more.
